this is a good list.

Ex. 5 Deliberative Process (DP)

I recommend you put this in front of Tina for her reaction, copy Belinda Hawkins.

I'm off on annual leave shortly.

I agree on a wider net.

bringing in a Regional reviewer is a good move to keep them feeling engaged.
Does Patrick Wilson in R9 have the right expertise to review?

How relevant is this to Tribes? is there a tribal representative/tribal council rep who should review, e.g., Jose Zambrana from NERL?

I recommend sending a list to me, Tina, Viktor, David and Belinda H. It can be a longer list and we can edit it down to the best reviewer list.

Also – what expertise do you need in your reviewers?

Subject: internal reviewers for update of PCB Tool and ELEs

Hi Emma – I have been making good progress on the update to the PCB Exposure Estimation Tool and ELEs. Although it is not yet ready for internal review (it is on the schedule for June which will be here in no time), I thought it might be wise to start thinking about who we might engage as internal EPA reviewers. I have a few thoughts (possibly Norm Birchfield, Geniece Lehmann, Kent Thomas, and/or someone from Tanya Mottley's group or the regions), but wondered if you have given any thought to who else we could ask to review it (or heard from anyone else who might be

interested). We usually only need a couple of internal EPA reviewers before going to external review, but we may want to cast a slightly wider net for this. Any thoughts? Linda
